

Jurnal Teknik Pertanian (J-TEP) is a scientific journal devoted to publish results of research, development, studies or ideas in the field of agricultural sciences, engineering, and technology in a broad sense. The scope of J-TEP includes (but is not limited to) the fields of: water-plant-land resource engineering, agricultural environment, bioprocess engineering, post-harvest and agro-industrial technology, farm power and equipment, renewable energy, agro-industrial wastes, control systems and artificial intelligence, robotics, and IoT applications in agriculture. Since 2016, J-TEP has been accredited to the SINTA-3 journal based on the Decree of the Director General of Higher Education No.21/E/KPT/2018, and since Vol. 11, No. 3 (September 2021) J-TEP has been accredited as a SINTA-2 journal based on the Decree of the Director General of Higher Education, Research and Technology No. 164/E/KPT/2021. Starting from Vol. 11, No.1 (March 2022) J-TEP is published in English. Starting in 2025, J-TEP is published 6 (six) times a year: February, April, June, August, October, and December. J-TEP is open to the public and invites researchers, students, practitioners, and observers in the world of agricultural engineering and agricultural technology to submit their scientific papers.

Chief Editor

Prof. Dr. Ir. Agus Haryanto, M.P. (Universitas Lampung)

Section Editors

Dr. Ir. Sugeng Triyono, M.Sc (Universitas Lampung)
Prof. Dr. Ir. R.A. Bustomi Rosadi, M.S. (Universitas Muhammadiyah Kotabumi)
Dr. Warji, S.T.P., M.Si (Universitas Lampung)
Prof. Dr. Dra. Maria Erna Kustyawati, M.Sc. (Universitas Lampung)
Prof. Dr. Ir. Santosa, M.P. (Universitas Andalas)
Ahmad Tusi, S.T.P., M.Si., Ph.D. (Universitas Lampung)
Dr. Ansar, S.T.P., M.Si. (Universitas Mataram)
Prof. Dr. Diding Suhandy, S.T.P., M.Agr. (Universitas Lampung)
Dr. Siti Suharyatun, S.T.P., M.Si. (Universitas Lampung)
Dr. Cicih Sugianti, S.T.P., M.Si. (Universitas Lampung)
Dr. Ir. Gatot Pramuhadi, M.Si. (IPB University).
Bayu Dwi Apri Nugroho, S.T.P., M.Agr., Ph.D. (Universitas Gadjah Mada)
Dr. Arif Dwi Santoso, S.Pi, M.Eng (Badan Riset dan Inovasi Nasional)
Dr. Mareli Telaumbanua, S.T.P., M.Sc. (Universitas Lampung)
Sri Waluyo, S.T.P., M.Si. Ph.D. (Universitas Lampung)
Dr. Ir. Mahmud Achmad, M.P. (Universitas Hasanudin)
Dr. Siswoyo Soekarno, S.T.P., M.Eng. IPM (Universitas Jember)

Editorial Boards

Febryan Kusuma Wisnu, S.T.P., M.Sc. (Universitas Lampung)
Witaningsih, S.T. (Universitas Lampung)
Merry Meyliana Leowan, S.T. (Universitas Lampung)

Jurnal Teknik Pertanian Lampung is published by Agricultural Engineering Department, University of Lampung in collaboration with PERTETA.

PREFACE

With gratitude to Allah the Almighty, Jurnal Teknik Pertanian Lampung (J-TPE) Volume 14, No. 2, April 2025 can finally be published. This edition contains 36 (thirty-six) papers from various fields of study in the world of Agricultural Engineering and Agricultural Technology including cultivation engineering, bioprocess technology, wood engineering, design, modeling, renewable energy, and others.

On this occasion, we would like to express our deepest gratitude to the authors for their contribution to J-TPE and to the reviewers of this journal for their participation and contribution in improving the quality of scientific papers published in this edition. Finally, I hope that J-TPE can be useful for the community and make a meaningful contribution to the development of science and technology, especially in the field of agricultural engineering and technology.

Editors

Content	Page
<i>Preface</i>	
Analysis of Rice Field Rat (<i>Rattus argentiventer</i>) Attacks After Owl (<i>Tyto alba</i>) Application in Karawang Regency, West Java <i>Reza Rama Gunada, Swastiko Priyambodo, Dadan Hindayana</i>	341-351
Accumulation of Heavy Metal Copper (Cu) in Mangrove Vegetation in River Flow of the Sea Coast <i>Dina Riska Triswanti, Moch Arifin, Purnomo Edi Sasongko</i>	352-361
Optimization of Microwave-Assisted Hydrodistillation from Indonesian White Pepper (<i>Piper nigrum</i> L.) Essential Oils <i>Sekar Widyaningrum, Sarifah Nurjanah, Bambang Nurhadi, S. Rosalinda, Rienoviar Rienoviar</i>	362-371
Effect of Rice Husk Bioactive Compost Charcoal Application on the Agronomic Characteristics of Peanut (<i>Arachis hypogaea</i> L.) on Alluvial Soil <i>Agus Suyanto, Urai Suci Yulies Vitri Indrawati, Shinta Rosalina, Edi Kurniadi</i>	372-379
Real-Time Monitoring System for Temperature, Humidity, and pH for Composting Process <i>Renny Eka Putri, Ilga Putri Maharani, Irriwad Putri</i>	380-390
Optimization of Suction Channel System on Vacuum-Type Soybean Seed Metering System Powered by Hand Tractor <i>Adhiasta Faris Setiabudi, Wawan Hermawan, Radite Praeko Agus Setiawan</i>	391-403
Impact of Goat Manure, Dolomite, Zeolite, and Decomposer <i>Trichoderma</i> sp. Amendments on the Chemical Characteristics of Inceptisol, Growth and Production of Shallot <i>M Nur Faiz Septiawan, Rossyda Priyadarshini, Moch Arifin</i>	404-416
The Role of Cadmium-Resistant Bacterial Application and Compost in Promoting Water Spinach Growth and Reducing Cadmium Uptake <i>Novrianty Rizqi Azis, Yulia Nuraini, Reni Ustiatik, Cahyo Prayogo</i>	417-423
Pan-Sharpening Analysis for Improved Detection Accuracy and Estimation of Coffee Plantation Land Area (Case Study: South OKU Regency, South Sumatra Province) <i>Anasrul Anasrul, Rani Nooraeni</i>	424-436
Analysis of Irrigation Modernization Readiness Using FAHP Method <i>Berliana Larasati, Delvi Yanti, Rusnam Rusnam</i>	437-447

Quality Control Analysis of Reject Products in the Multiline Machine Packaging Process Using the Statistical Quality Control (SQC) Method <i>Olivia Safa Salsabila Ali, Budi Hariono</i>	448-457
Influence of Temperature and Sweating Duration on The Quality of Vanilla (<i>Vanilla planifolia</i> Andrews) <i>Farida Kurniasari, I Wayan Budiastara, Dyah Wulandani</i>	458-466
Gastropod Diversity as a Bioindicator of the Heavy Metal Iron (Fe) Around the East Coast River of Surabaya <i>Afrisal Amar Abdillah, Moch Arifin, Kemal Wijaya</i>	467-472
Physicochemical and Sensory Characteristics of Noni (<i>Morinda citrifolia</i>) Juice Drink with the Addition of Ginger and Lemongrass <i>Riska Rian Fauziah, Shinta Zahrotun Nisa, Jayus Jayus</i>	473-482
The Impact of Yellow Leaf Curl Disease Stage During Vegetative and Generative Phases on The Growth and Yield of Curly Red Chili Pepper OR Twist 42 <i>Syahtian Suprayogi, Nugraheni Widyawati, Maria Marina Herawati</i>	483-493
Analysis Rice Field Drought Potential using the Standardized Precipitation Index (SPI) Method <i>Rival Doli Yusman, Fadli Irsyad, Feri Arlius, Rizky Armei Saputra, Delvi Yanti</i>	494-505
Sustainable Agro-Tourism Development through Community Based Tourism (CBT) Strategy <i>Iwan Zuhdi, Budi Setiawan, Dwi Retno Andriani</i>	506-514
Portable Near-Infrared Spectroscopy and Support Vector Regression for Fast Quality Evaluation of Vanilla (<i>Vanilla planifolia</i>) <i>Widyaningrum Widyaningrum, Yohanes Aris Purwanto, Slamet Widodo, Supijatno Supijatno, Evi Savitri Iriani</i>	515-526
The Effect of Tuber Size and the Addition of Organic Materials on the Growth and Yield of Garlic Plants (<i>Allium sativum</i> L.) Var. Lumbu Kuning <i>Rizkiyatul Awwalu Bil Khikmah, Makhziah Makhziah, Hadi Suhardjono</i>	527-536
Thermal Performance of LPG Stove as Heat Source of Rotary Dryer for Drying Corn for Small Farmers <i>Ida Bagus Alit, I Gede Bawa Susana</i>	537-546
Water Balance Analysis Using the Thornthwaite-Mather Method as a Basis for Cropping Pattern Development in Dry Land <i>Sophia Dwiratna, Yogina Lestari Ayu, Chay Asdak, Nabila Aura Pithaloka</i>	547-559
Effectiveness of Lontar Sap Vinegar and Lime Juice as a Substitute for HCl in the Production of Skipjack Fish Bone Gelatin <i>Naema Bora, Anastasia Grandivoriana Nomi</i>	560-569
Design and Testing of Stream as a Sterilization Tool for <i>Trichoderma</i> sp. Propagation Media Using a Palm Oil Mill Steam Boiler <i>Ihsanul Fajri, Edy Hartulistiyoso, Rahayu Widyastuti</i>	570-581

Geostatistical Approach and Drone Image Analysis of the Spatial Distribution of Bacterial Leaf Blight in Rice Plants <i>Hery Nirwanto, Sri Wiyatiningsih, Salsa Bila Ari Nur Izza</i>	582-593
Risk Assessment for Long-term Injury of Oil Palm Harvester <i>Arief RM Akbar, Alan Dwi Wibowo, Bima Hairul Asyikin</i>	594-603
Chickpea Plant Results Due to Liquid Organic Fertilizer Waste from Leaf Vegetable Waste and Tofu Liquid Waste <i>Lena Walunguru, Marsema Kaka Mone</i>	604-612
Performance of Automatic Watering System for Bean Sprout Based on Microcontroller ATmega 328p <i>Muhammad Idkham, Siti Mechram, Danang Abiyyudanah, Wirda Syadara, Muhammad Dhafir, Syafrizal Syafrizal</i>	613-622
Artificial Neural Network Model for Shallot Disease Severity Prediction Using Drone Multispectral Imagery <i>Angga Firmansyah, Mohamad Solahudin, Supriyanto Supriyanto</i>	623-637
The Effect of Bio-Fertilizer Concentration and NPK Fertilizer Dosage on the Growth and Yield of Melon (<i>Cucumis melo</i> L.) Merlin Variety <i>Alfani Ahsanul Ilmi, Juli Santoso, Sutini Sutini</i>	638-644
Mini Cutting Force Sensor: A Novel Approach for Predicting Cutting Forces of Agricultural Products <i>Iriwad Putri, Renny Eka Putri, Muhammad Makky, Santosa Santosa</i>	645-656
Efficiency and Profitability of Rice Farming: Comparison of Transplanting (TAPIN) and Direct Seeding (TABELA) Systems <i>Moh. Shofiyur Rohman, Rosihan Asmara, Fahriyah Fahriyah</i>	657-665
Effect of Concentration and Frequency of Paclobutrazol Application on Growth and Yield of Shallot <i>Alia Dewi Palupi, Agus Sulistyono, Nova Triani</i>	666-676
Water Productivity of Mustard Green (<i>Brassica juncea</i> L.) Under Drip Irrigation Systems and Organic Matter Addition <i>Nova Anika, Siti Mutmainah, Muhammad Kusmali, Harmiansyah Harmiansyah, David Septian Sumanto Marpaung, Ridwan Ridwan</i>	677-684
Modeling River Water Levels in Tidal Swamp Areas using HEC-RAS to Determine the Hydrotopography of Tidal Farmland <i>Faiz Afnan Nurrahman, Chandra Setyawan, Hanggar Ganara Mawandha</i>	685-700
Determination of Superior Agricultural Commodity Areas Based on Historical Data and Land Suitability <i>Alfina Zukhrifa, Fadli Irsyad, Delvi Yanti</i>	701-713

REVIEW

**Fluorescence Imaging as a Non-Destructive Method for Aflatoxin Detection
in Corn Kernels: Recent Advances and Challenges**

PEDOMAN PENULISAN ARTIKEL BAGI PENULIS

- 1) **Naskah:** Redaksi menerima sumbangan naskah/tulisan ilmiah dalam bahasa Indonesia atau bahasa Inggris, dengan batasan sebagai berikut :
 - a. Naskah diketik pada kertas ukuran A4 (210mm x 297mm) dengan 2 spasi dan ukuran huruf Times New Roman 12pt. Jarak tepi kiri, kanan, atas, dan bawah masing-masing 3 cm. Panjang naskah tidak melebihi 20 halaman termasuk abstrak, daftar pustaka, tabel dan gambar. **Semua tabel dan gambar disisipkan dalam naskah** dengan penomoran sesuai dengan yang tertera dalam naskah. Naskah disusun dengan urutan sebagai berikut: Judul; Nama Penulis disertai dengan catatan kaki tentang instansi tempat bekerja; Pendahuluan; Bahan dan Metode; Hasil dan Pembahasan; Kesimpulan dan Saran; Daftar Pustaka; serta Lampiran jika diperlukan. Template penulisan dapat didownload di <http://jurnal.fp.unila.ac.id/index.php/JTP>
 - b. **Abstrak (Abstract)** dalam bahasa Indonesia dan bahasa Inggris, tidak lebih dari 200 kata. Mengandung informasi yang tertuang dalam penulisan dan mudah untuk dipahami. Ringkasan (abstract) harus memuat secara singkat latar belakang, tujuan, metode, serta kesimpulan dan yang merupakan *high light* hasil penelitian.
 - c. **Pendahuluan:** memuat latar belakang masalah yang mendorong dilaksanakannya perekayasaannya dan penelitian, sitasi dari temuan-temuan terdahulu yang berkaitan dan relevan, serta tujuan perekayasaannya atau penelitian.
 - d. **Bahan dan Metode:** secara jelas menerangkan bahan dan metodologi yang digunakan dalam perekayasaannya atau penelitian berikut dengan lokasi dan waktu pelaksanaan, serta analisis statistik yang digunakan. Rujukan diberikan kepada metoda yang spesifik.
 - e. **Hasil dan Pembahasan:** Memuat hasil-hasil perekayasaannya atau penelitian yang diperoleh dan kaitannya dengan bagaimana hasil tersebut dapat memecahkan masalah serta implikasinya. Persamaan dan perbedaannya dengan hasil perekayasaannya atau penelitian terdahulu serta prospek pengembangannya. Hasil dapat disajikan dengan menampilkan gambar, grafik, ataupun tabel.
 - f. **Kesimpulan dan Saran:** memuat hal-hal penting dari hasil penelitian dan kontribusinya untuk mengatasi masalah serta saran yang diperlukan untuk arah perekayasaannya dan penelitian lebih lanjut.
 - g. **Daftar Pustaka:** disusun secara alfabetis menurut penulis, dengan susunan dan format sebagai berikut: Nama penulis didahului nama family/nama terakhir diikuti huruf pertama nama kecil atau nama pertama. Untuk penulis kedua dan seterusnya ditulis kebalikannya. Contoh:
 - Kepustakaan dari Jurnal:
Tusi, Ahmad, dan R.A. Bustomi Rosadi. (2009). Aplikasi Irigasi Defisit pada Tanaman Jagung. *Jurnal Irigasi*, 4(2): 120-130.
 - Kepustakaan dari Buku:
Keller, J., and R.D. Bleisner. (1990). *Sprinkle and Trickle Irrigation*. AVI Publishing Company Inc. New York, USA.
 - h. **Satuan:** Satuan harus menggunakan system internasional (SI), contoh : m (meter), N (newton), °C (temperature), kW dan W (daya), dll.
- 2) **Penyampaian Naskah:** Naskah/karya ilmiah dapat dikirimkan ke alamat dalam bentuk *soft copy* ke :
Redaksi J-TEP (Jurnal Teknik Pertanian Unila)
