

Jurnal Teknik Pertanian (J-TEP) is a scientific journal devoted to publish results of research, development, studies or ideas in the field of agricultural sciences, engineering, and technology in a broad sense. The scope of J-TEP includes (but is not limited to) the fields of: water-plant-land resource engineering, agricultural environment, bioprocess engineering, post-harvest and agro-industrial technology, farm power and equipment, renewable energy, agro-industrial wastes, control systems and artificial intelligence, robotics, and IoT applications in agriculture. Since 2016, J-TEP has been accredited as the journal with SINTA-2 rank based on the Decree of the Director General of Higher Education No. 164/E/KPT/2021. Starting from Vol. 11, No.1 (March 2022) J-TEP is published in English. Starting in 2025, J-TEP is published 6 (six) times a year: February, April, June, August, October, and December. J-TEP is open to the public and invites researchers, students, practitioners, and observers in the world of agricultural engineering and agricultural technology to submit their scientific papers.

Chief Editor

Prof. Dr. Ir. Agus Haryanto, M.P. (Universitas Lampung)

Section Editors

Prof. Dr. Ir. Sugeng Triyono, M.Sc (Universitas Lampung)
Prof. Dr. Warji, S.T.P., M.Si (Universitas Lampung)
Prof. Dr. Dra. Maria Erna Kustyawati, M.Sc. (Universitas Lampung)
Prof. Dr. Ir. Santosa, M.P. (Universitas Andalas)
Ahmad Tusi, S.T.P., M.Si., Ph.D. (Universitas Lampung)
Dr. Ansar, S.T.P., M.Si. (Universitas Mataram)
Prof. Dr. Diding Suhandy, S.T.P., M.Agr. (Universitas Lampung)
Dr. Siti Suharyatun, S.T.P., M.Si. (Universitas Lampung)
Dr. Cicih Sugianti, S.T.P., M.Si. (Universitas Lampung)
Dr. Ir. Gatot Pramuhadi, M.Si. (IPB University)
Bayu Dwi Apri Nugroho, S.T.P., M.Agr., Ph.D. (Universitas Gadjah Mada)
Dr. Arif Dwi Santoso, S.Pi, M.Eng (Badan Riset dan Inovasi Nasional)
Dr. Mareli Telaumbanua, S.T.P., M.Sc. (Universitas Lampung)
Sri Waluyo, S.T.P., M.Si. Ph.D. (Universitas Lampung)
Dr. Ir. Mahmud Achmad, M.P. (Universitas Hasanudin)
Dr. Siswoyo Soekarno, S.T.P., M.Eng. IPM (Universitas Jember)
Dr. Ir. Tamrin, M.S. (Universitas Lampung)
Dwi Cahyani (Institusi North Carolina State University, USA)
Dr. Tabli Ghosh (Tezpur University, India)
Margo Sulistio, Ph. D. (National Ilan University, Taiwan)
Dr. Mahirah Binti Jahari (Universiti Putra Malaysia)

Editorial Boards

Febryan Kusuma Wisnu, S.T.P., M.Sc. (Universitas Lampung)
Witaningsih, S.T., M.T. (Universitas Lampung)
Merry Meyliana Leowan, S.T. (Universitas Lampung)

Jurnal Teknik Pertanian Lampung is published by Agricultural Engineering Department, University of Lampung in collaboration with PERTETA.

PREFACE

With gratitude to Allah the Almighty, Jurnal Teknik Pertanian Lampung (J-TEP) Volume 15, No. 4, August 2026 can finally be published. This edition contains 26 (twenty-six) papers from various fields of study in the world of Agricultural Engineering and Agricultural Technology including cultivation engineering, bioprocess technology, wood engineering, design, modeling, renewable energy, and others.

On this occasion, we would like to express our deepest gratitude to the authors for their contribution to J-TEP and to the reviewers of this journal for their participation and contribution in improving the quality of scientific papers published in this edition. Finally, We hope that J-TEP can be useful for the community and make a meaningful contribution to the development of science and technology, especially in the field of agricultural engineering and technology.

Editors

Content	Page
<i>Preface</i>	
Applied the Holt–Winter Forecasting Method for Rice Production: A Case Study of Cianjur and Indramayu Regencies, West Java, Indonesia <i>Imaningtyastuti, Sam Herodian, Mohamad Solahudin</i>	1288–1297
The Effect of Chitosan-Based Edible Coating and Salicylic Acid with the Addition of Green Tea Extract on Extending the Shelf Life of Banana Fruit (<i>Musa paradisiaca</i> L.) <i>Hermawan Dwi Ariyanto, Alifa Nur Shabrina</i>	1298–1308
Effect of Aeration Rate on the Quality of Bio-Urine Produced from Cattle Urine Fermentation in an Aerobic Bioreactor <i>I Putu Surya Wirawan, Mukhes Sri Muna, Yohanes Setiyo</i>	1309–1322
Formulation of Nutrient-Dense Snack Bars Based on Local Food Sources for Stunting Prevention: Proximate and Micronutrient Characteristics <i>Naema Bora, John Tibo Kana Tiri, Marthen Y Saubaki</i>	1323–1333
Deterministic and Probabilistic Assessment for Dietary Exposure of Naturally Occurring Formaldehyde in Fresh Foods of Plant Origin in Indonesia <i>Mas Andang Rahmatullah, Feri Kusnandar, Diah Chandra Aryani, Yusra Egayanti</i>	1334–1344
Dynamics of Soil CO₂ Flux in Rice Systems Under Biochar and Poultry Manure Application Using a Portable NDIR-Based Sensor System <i>Muhamad Afif Akbar, Cahyo Prayogo, Zaenal Kusuma</i>	1345–1355
Enhancing Growth and Yield of Garuda Clone Cassava through Mukibat Grafting and Microbial-Based Fertilization <i>Ariwibowo, Setyo Dwi Utomo, Yusnita, Fitri Yelli, Kukuh Setiawan, Wan Abbas Zakaria, Khairullah</i>	1356–1368
Impact of Regulatory Interventions on Ethylene Oxide Residues in Chili Powder for Instant Noodles in Indonesia <i>Asri Yusnitasari, Puspo Edi Giriwono, Nuri Andarwulan</i>	1369–1380
Evaluating the Effectiveness of Flood Control Scenarios in Reducing Flood Hazard Index Levels in the Ciletuh River, Indonesia <i>Milad Panji Swara, Joko Nugroho, Widyaningtias, Ana Nurganah Chaidar, Rizqa Mulia Josiana</i>	1381–1396
Multidimensional Sustainability Analysis of Forest and Land Rehabilitation Program in Bombana Regency, Southeast Sulawesi, Indonesia <i>Hartati, Sitti Rosmalah, Sarwati</i>	1397–1408
Effect of Drying Temperature and Time Using a Solar Thermal Dryer on Moisture Content, Color, and Proximate Properties of Moringa (<i>Moringa oleifera</i>) Leaves <i>Fitrah Evar, Radhiansyah</i>	1409–1419

Correlation Between Roasting Duration and Physicochemical Properties of Arabica Coffee (<i>Coffea arabica</i> L.) Beans: A Basis for Roasting Profile Standardization	1420–1428
<i>Ilham Efendi, Fadli Hafizulhaq, Renny Eka Putri</i>	
Effect of Freeze-Thaw and Ultrasonic Pretreatment on the Drying Rate and Quality of Lemon (<i>Citrus limon</i>) Slices	1429–1438
<i>Mohammad Nafila Alfa, Rokhani Hasbullah, Leopold Oscar Nelwan</i>	
Non-Destructive Method for Evaluating Viability of Watermelon and Tomato Seeds Using Radiographic Imaging	1439–1447
<i>Radi, Agus Harjoko, Muhammad Affan Fajar Falah, Agus Budi Setiawan, Solikhatun, Lukman Awaludin, Gigieh Henggar Jaya, Hety Handayani Hidayat, Barokah, Aprilia Tiara Ikhwan, Alfiana Novanti Putri, Muhammad Ardi Putra, Nur Fajrina, Baskan Hanurajie</i>	
Development and Validation of an ESP32-Based Multi-Sensor System for Precision Smart Greenhouse Monitoring	1448–1458
<i>Muhammad Dhafir, Muhammad Idkham, Safrizal, Khairul Anwar</i>	
Effect of Fermentation Time and Spray Drying Inlet Temperature on the Quality of Egg White Powder	1459–1470
<i>Rokhani Hasbullah, Muhammad Ihsan Rosyadi, Obie Farobie, Leopold O Nelwan, Usman Ahmad</i>	
Mitigation of Cadmium Stress in Lettuce (<i>Lactuca sativa</i> L.) Using Rice Husk Biochar and Silica Fertilizer	1471–1482
<i>Diny Evitasari, Moch Arifin, Maroeto</i>	
Influence of Anthocyanin Concentration on the Performance of Papaya Freshness Indicator	1483–1494
<i>Indrawan Cahyo Adilaksono, Rijanti Rahaju Maulani, Putri Safina Jasmine, Rika Alfianny, Laras Putri Wigati</i>	
Characteristics of Cookies Made from Lindur Mangrove Flour Substitution	1495–1509
<i>Oktaf Rina, Tinda Yuvita, Nurbani Kalsum, Surfiana, Zukryandry</i>	
Development of High-Fiber Functional Cereal from Broken Black Rice, Corn, and Red Beans Using Mixture Design Approach	1510–1519
<i>Suryani Merydaniati Saragih, Slamet Budijanto, Azis Boing Sitanggang</i>	
Impact of Forest Fires on the Stability and Distribution of Soil Organic Matter Fractions in Agroforestry Systems	1520–1531
<i>Muhammad Rizky Fahrezi, Rizki Maulana Ishaq, Syahrul Kurniawan</i>	
Characteristics of Soy-Based Kefir with the Addition of Ajwa Date Juice	1532–1546
<i>Queenta Afifa Khairima, Julfi Restu Amelia</i>	
Optimizing Water Level on Japanese Cucumber (<i>Cucumis sativus</i> L.) with Unpowered Automatic Fertigator Technology (FONi)	1547–1558
<i>Musyaffak Astra Nawa Ula, Nova Triani, Fadila Suryandika, Chusnul Arif</i>	
Phenolic Compounds of Guava Leaves (<i>Psidium guajava</i> L.): Their Antimicrobial Activity and Application in Pindang Eggs	1559–1571
<i>Riska Jannah Nasution, Dias Indrasti, Harsi D Kusumaningrum</i>	

Analysis of the Kinetics of Color Change and Weight Loss in Cherry Tomatoes during Hypobaric Storage	1572–1589
<i>Dewi Maya Maharani, Annisa Rosadilla, Kien Ratu Paramartha, Dwi Setiawan, La Choviya Hawa</i>	
Life Cycle Assessment and Life Cycle Cost Analysis of Small Scale Tempeh Industries	1590–1605
<i>Nita Kuswardhani, Miftahul Choiron, Octafian Maulana Qomaruzzaman</i>	

ARTICLE WRITING GUIDELINES FOR AUTHORS

1) Manuscript: The Editorial Board accepts scientific papers in either Indonesian or English, with the following requirements:

- a. Manuscripts must be typed on A4-sized paper (210 mm × 297 mm), double-spaced, using Times New Roman font, 12 pt. Margins should be 3 cm on the left, right, top, and bottom. The length of the manuscript should not exceed 20 pages, including abstract, references, tables, and figures. All tables and figures must be embedded in the manuscript and numbered consecutively as they appear. The manuscript should be structured as follows: Title; Author(s) with footnotes indicating institutional affiliation(s); Introduction; Materials and Methods; Results and Discussion; Conclusion and Recommendations; References; and Appendices (if necessary). A writing template can be downloaded at <http://jurnal.fp.unila.ac.id/index.php/IJP>.
- b. **Abstracts** must be written in both Indonesian and English, with no more than 200 words. They should provide clear and concise information that is easy to understand, briefly covering the background, objectives, methods, main findings, and conclusions of the study.
- c. **Introduction:** Should present the background of the problem, relevant previous findings, and the objectives of the study or engineering work.
- d. **Materials and Methods:** Should clearly describe the materials and methodologies used, including the location and time of the study, as well as the statistical analyses applied. References should be provided for specific methods.
- e. **Results and Discussion:** Should present the research or engineering results, their relevance to problem-solving, implications, similarities and differences with previous studies, and potential for further development. Results may be presented in the form of figures, graphs, or tables.
- f. **Conclusion and Recommendations:** Should summarize the key findings, their contribution to addressing the problem, and provide recommendations for future research or engineering work.
- g. **References:** Must be arranged alphabetically. The format is as follows: Author's family name/surname followed by the initials of the first name. For the second and subsequent authors, write in normal order.
 - *Journal* *article:*
Tusi, A., & Rosadi, R.A.B. (2009). Aplikasi irigasi defisit pada tanaman jagung. *Jurnal Irigasi*, 4(2), 120–130.
 - *Book:*
Keller, J., & Bleisner, R.D. (1990). *Sprinkle and Trickle Irrigation*. New York: AVI Publishing Company Inc.
- h. **Units:** All measurements must follow the International System of Units (SI), e.g., m (meter), N (newton), °C (temperature), kW and W (power), etc.

2) Manuscript Submission: Manuscripts should be submitted in soft copy to the following address:

Editorial Office, J-TEP (Journal of Agricultural Engineering, University of Lampung)

Department of Agricultural Engineering, Faculty of Agriculture

University of Lampung

Jl. Sumantri Brodjonegoro No. 1

Telp. +62-721-701609 ext. 846

Website: <http://jurnal.fp.unila.ac.id/index.php/IJP>

Email: jurnal_tep@fp.unila.ac.id

3) Review Process

During the submission, peer review, and acceptance stages, all correspondence with the author(s) will be conducted via email.

4) Editorial and Reviewer Rights

Reviewers have the right to evaluate, correct, add, or remove content from the manuscript if deemed necessary, without altering the overall purpose and objectives of the study.
