

Jurnal Teknik Pertanian (J-TEP) is a scientific journal devoted to publish results of research, development, studies or ideas in the field of agricultural sciences, engineering, and technology in a broad sense. The scope of J-TEP includes (but is not limited to) the fields of: water-plant-land resource engineering, agricultural environment, bioprocess engineering, post-harvest and agro-industrial technology, farm power and equipment, renewable energy, agro-industrial wastes, control systems and artificial intelligence, robotics, and IoT applications in agriculture. Since 2016, J-TEP has been accredited as the journal with SINTA-2 rank based on the Decree of the Director General of Higher Education No. 164/E/KPT/2021. Starting from Vol. 11, No.1 (March 2022) J-TEP is published in English. Starting in 2025, J-TEP is published 6 (six) times a year: February, April, June, August, October, and December. J-TEP is open to the public and invites researchers, students, practitioners, and observers in the world of agricultural engineering and agricultural technology to submit their scientific papers.

Chief Editor

Prof. Dr. Ir. Agus Haryanto, M.P. (Universitas Lampung)

Section Editors

Prof. Dr. Ir. Sugeng Triyono, M.Sc (Universitas Lampung)
Prof. Dr. Warji, S.T.P., M.Si (Universitas Lampung)
Prof. Dr. Dra. Maria Erna Kustyawati, M.Sc. (Universitas Lampung)
Prof. Dr. Ir. Santosa, M.P. (Universitas Andalas)
Ahmad Tusi, S.T.P., M.Si., Ph.D. (Universitas Lampung)
Dr. Ansar, S.T.P., M.Si. (Universitas Mataram)
Prof. Dr. Diding Suhandy, S.T.P., M.Agr. (Universitas Lampung)
Dr. Siti Suharyatun, S.T.P., M.Si. (Universitas Lampung)
Dr. Cicih Sugianti, S.T.P., M.Si. (Universitas Lampung)
Dr. Ir. Gatot Pramuhadi, M.Si. (IPB University)
Bayu Dwi Apri Nugroho, S.T.P., M.Agr., Ph.D. (Universitas Gadjah Mada)
Dr. Arif Dwi Santoso, S.Pi, M.Eng (Badan Riset dan Inovasi Nasional)
Dr. Mareli Telaumbanua, S.T.P., M.Sc. (Universitas Lampung)
Sri Waluyo, S.T.P., M.Si. Ph.D. (Universitas Lampung)
Dr. Ir. Mahmud Achmad, M.P. (Universitas Hasanudin)
Dr. Siswoyo Soekarno, S.T.P., M.Eng. IPM (Universitas Jember)
Dr. Ir. Tamrin, M.S. (Universitas Lampung)
Dwi Cahyani (Institusi North Carolina State University, USA)
Dr. Tabli Ghosh (Tezpur University, India)
Margo Sulistio, Ph. D. (National Ilan University, Taiwan)
Dr. Mahirah Binti Jahari (Universiti Putra Malaysia)

Editorial Boards

Febryan Kusuma Wisnu, S.T.P., M.Sc. (Universitas Lampung)
Witaningsih, S.T., M.T. (Universitas Lampung)
Merry Meyliana Leowan, S.T. (Universitas Lampung)

Jurnal Teknik Pertanian Lampung is published by Agricultural Engineering Department, University of Lampung in collaboration with PERTETA.

PREFACE

With gratitude to Allah the Almighty, Jurnal Teknik Pertanian Lampung (J-TEP) Volume 15, No. 3, June 2026 can finally be published. This edition contains 33 (thirty-three) papers from various fields of study in the world of Agricultural Engineering and Agricultural Technology including cultivation engineering, bioprocess technology, wood engineering, design, modeling, renewable energy, and others.

On this occasion, we would like to express our deepest gratitude to the authors for their contribution to J-TEP and to the reviewers of this journal for their participation and contribution in improving the quality of scientific papers published in this edition. Finally, We hope that J-TEP can be useful for the community and make a meaningful contribution to the development of science and technology, especially in the field of agricultural engineering and technology.

Editors

Content	Page
<i>Preface</i>	
Drying Kinetics of Porang (<i>Amorphophallus oncophyllus</i>) Tubers at Different Sizes and Harvest Periods Using a Lewis–Runge–Kutta Approach <i>Saifuddin Afif, Sri Rahayoe, Eni Harmayani, Fertika Nur Fitriyana, Lisa Astiana Ghina</i>	882–894
Grading Coffee Beans using Extraction of Shape-Based Features Coupled with Support Vector Machine <i>Agus Dharmawan, Rudiati Evi Masithoh, Siswoyo Soekarno, Hanim Zuhrotul Amanah</i>	895–906
Effects of MKP Concentration and Apical Pruning on the Growth and Yield of Melon (<i>Cucumis melo</i> L.) var. Inthanon under NFT Hydroponics System <i>Yuki Erwanto Putri, Ramdan Hidayat, Nova Triani</i>	907–917
Impact of El Niño on the Productivity and Income of Conventional and Organic Oil Palm Farmers at Penawar Tama, Tulang Bawang Regency <i>Siti Ghalika Permata Suri Almega, Zainal Abidin, Yaktiworko Indriani, Ktut Murniati, Fembriarti Erry Prasmatiwati</i>	918–929
Sensory Profiling and Consumer Preference of Local Bogor Coffee Brands Using CATA (Check-All-That-Apply) Method <i>Muhammad Fakhri Kurniawan, Siti Nursaidah Rahmah, Tiara Amanda Lestari</i>	930–941
Effect of Compaction Pressure and Drying Duration on the Characteristics of Biochar Briquettes from Coconut Shell and Sugarcane Bagasse <i>Welly Deglas, Fransiska, Maria Krisna Evania</i>	942–952
Utilization of Plant Waste Bokashi Compost for Urban Organic Melon (<i>Cucumis melo</i> L.) Cultivation <i>Nurseha, Nurlianti, Septia Yessi Rhamadani, Prihanani, Farida Aryani</i>	953–962
Heat Unit–Based Prediction of Harvest Age in Rice under Different Planting Spacings and Genotypes <i>Yohana Kathryn Siahaan, Dulbari, Juwita Suri Maharani, Moh Haris Imron S Jaya</i>	963–979
Antioxidant Activity and Sensory Profile Characterization of Herbal Tea Made of Melinjo (<i>Gnetum gnemon</i> L.) Peels and White Turmeric (<i>Curcuma zedoaria</i>) <i>Alifah Lailatul Rahmah, Dase Hunaefi, Nancy Dewi Yuliana</i>	980–990
Rapid Detection of Dragon Fruit Peel Powder Adulteration by Vis-NIR and SW-NIR Spectroscopy with PLSR Model <i>Nadya Hafidzatun Nisa, Rudiati Evi Masithoh, Muhammad Fahri Reza Pahlawan, Hanim Zuhrotul Amanah, Reza Adhitama Putra Hernanda</i>	991–1006

Impact of Insecticide Application Containing Active Ingredients Emamectin Benzoate and Deltamethrin on the Mortality and Emergence of <i>Trichogramma japonicum</i> Imagoes <i>Hanif Maulana Ahmad, Noni Ramadhini, Hery Nirwanto</i>	1007–1013
Application of Mycorrhizal Inoculum and Moringa Leaf Extract to Improve Growth and Yield of Soybean (<i>Glycine max</i> L.) on Alluvial Soil <i>Agnes Tutik Purwani Irianti, Agus Suyanto, Sherly Oktarianti, Edi Kurniadi</i>	1014–1022
Jelai Starch–Na-Alginate Film Reinforced with Bacterial Cellulose and Glycerol Plasticizer for Minimally Processed Pineapple Coating <i>Sukmiyati Agustin, Muhammad Fajar Rahmadani</i>	1023–1036
Effect of Benzyladenine (BA) and Thidiazuron (TDZ) Application on the Bud Emergence and Seedling Uniformity of Sugarcane Setts <i>Puput Ninggariawan, Yusnita, Dwi Hapsoro, Kukuh Setiawan, Rusdi Evizal</i>	1037–1043
Effect of Immersion Time and Packaging Type on the Quality of Curly Red Chili Coated with Chitosan–Aloe vera <i>Muhammad Rifqi, Sherina Zahran Tiara, Tiana Fitrilia</i>	1044–1056
Effect of Soil Conservation on Soil Erosion and Plant Performance under Pine–Durian Agroforestry Systems in Perhutani Production Forest <i>Arif Firmansyah, Kurniawan Sigit Wicaksono, Cahyo Prayogo, Didik Suprayogo</i>	1057–1070
Assessing Two Optimized Smart Automated Irrigation Systems for Four Chili Cultivars <i>Zammy Rivaldo, Lukita Devy, Miftahul Huda Fendiyanto, Haryo Prastono, Rina Aprianti</i>	1071–1086
Characteristics of <i>Dioscorea esculenta</i> Starch Exposed to Citric Acid and Autoclaving-Cooling Treatment <i>Andriana Puspitasari, Yudi Pranoto, Priyanto Triwitono, Dwi Larasatie Nur Fibri</i>	1087–1097
Analysis of Land Use Impacts on Flood Propagation and Inundation Area Using 2D HEC-RAS Modeling: A Case Study of the Babakan Watershed, Central Java <i>Arief Yudho Wicaksono, Mohammad Farid, Vika Febriyani, Aji Prakoso Nimanto</i>	1098–1114
Assessment of Leachate Treatment Efficiency and Its Impact on Surface Water Quality at the Blang Bintang Landfill, Aceh Besar <i>Jonianto, Ichwana Ramli, Suhendrayatna, Sri Mulyati, Mariana</i>	1115–1129
Analysis of Mill Motor Speed on the Sugar Value in Bagasse Using the Fuzzy Logic Method at the Sugar Factory of PT. Pratama Nusantara Sakti <i>Ricky Rachman Nursa, Helmy Fitriawan, Sri Ratna Sulistiyanti</i>	1130–1142
A Effect of Straw and Cattle Manure Ratio on Bokashi Quality Based on C/N Balance and Nutrient Availability <i>Yason Edison Benu, Jemseng Carles Abineno, Marvin Jecson Pandu, Johny Agustinus Koylal, Micha Snoverson Ratu Rihi</i>	1143–1151

The Optimization of Operating Parameters on the Reduction of Relative Humidity in a Dehumidifier Dryer Using Response Surface Methodology <i>Iswahyono, Yossi Wibisono, Didiek Hermanuadi, Amal Bahariawan, Meta Fitri Rizkiana</i>	1152–1163
Non-Destructive Detection of Coffee Bean Defects using Machine Vision and the YOLOv11 Algorithm <i>Hary Kurniawan, Ince Siti Wardatullatifah S, Hanifah Ayu, Surya Abdul Muttalib, Sukmawaty, Ansar, Rahmat Sabani, Murad</i>	1164–1179
Performance Comparison of Recursive and Semi-Recursive Random Forest Models for Monthly Rainfall Prediction in the Bogowonto Watershed <i>Yulian Kusuma Ari Setiadi, Hanggar Ganara Mawandha, Sigit Supadmo Arif</i>	1180–1194
The Effect of Biosaka Elicitor Types and Concentrations on the Growth and Yield of Chili Pepper (<i>Capsicum frutescens</i> L.) <i>Andrian Tri Susanto, Makhziah, Juli Santoso</i>	1195–1207
Performance of Shell Peeling Machine for Koro Pedang (<i>Canavalia ensiformis</i>) <i>Agus Sutejo, Gilang Ramdani, Rafi Rizky Mulyadi, Dinur Saptiadi</i>	1208–1221
The Effect of Thermal and Alkaline Pretreatment in POME (Palm Oil Mill Effluent) as a Substrate for Dark Fermentation Process on Biohydrogen Production <i>Amna Citra Farhani, Bintang Sipartogi Panjaitan, Ni Wayan Arya Utari</i>	1222–1231
Effect of Phosphorus Fertilizer Application Timing and Dosage on the Growth and Yield of Snow Pea (<i>Pisum sativum</i> L.) <i>Dita Widiанти, Widiwurjani, Agus Sulistyono</i>	1232–1240
Rainfall Prediction with Radial Basis Function Neural Network and Its Correlation with Bird's Eye Chili (<i>Capsicum frutescens</i>) Production in Sawangan Subdistrict Magelang Regency <i>Azka Sinatrya, Bayu Dwi Apri Nugroho, Chandra Setyawan</i>	1241–1253
Effect of Shade Intensity and Soil Types on the Vegetative Growth and Chlorophyll Content of Javanese Pepper (<i>Piper retrofractum</i> Vahl.) Seedlings <i>Reo Sambodo, Angki Intan, Wafit Dinarto, Dian Astriani</i>	1254–1263
Effectiveness of Low-Cost Ozone Treatment in Preserving the Postharvest Quality of Chilli Pepper under Tropical Ambient Storage <i>Indriati Meilina Sari, Kiky Nurfitri Sari, Andika Prawanto, Paisal Ansiska</i>	1264–1276
REVIEW	
Development of Fish-Based Halal Gelatin as an Edible Film Coating Material <i>Junanda Auditya Onasis, Ela Roswasti Angelia Syeba Ginting</i>	1277–1287
ARTICLE WRITING GUIDELINES FOR AUTHORS	

1) Manuscript: The Editorial Board accepts scientific papers in either Indonesian or English, with the following requirements:

- a. Manuscripts must be typed on A4-sized paper (210 mm × 297 mm), double-spaced, using Times New Roman font, 12 pt. Margins should be 3 cm on the left, right, top, and bottom. The length of the manuscript should not exceed 20 pages, including abstract, references, tables, and figures. All tables and figures must be embedded in the manuscript and numbered consecutively as they appear. The manuscript should be structured as follows: Title; Author(s) with footnotes indicating institutional affiliation(s); Introduction; Materials and Methods; Results and Discussion; Conclusion and Recommendations; References; and Appendices (if necessary). A writing template can be downloaded at <http://jurnal.fp.unila.ac.id/index.php/ITP>.
- b. **Abstracts** must be written in both Indonesian and English, with no more than 200 words. They should provide clear and concise information that is easy to understand, briefly covering the background, objectives, methods, main findings, and conclusions of the study.
- c. **Introduction:** Should present the background of the problem, relevant previous findings, and the objectives of the study or engineering work.
- d. **Materials and Methods:** Should clearly describe the materials and methodologies used, including the location and time of the study, as well as the statistical analyses applied. References should be provided for specific methods.
- e. **Results and Discussion:** Should present the research or engineering results, their relevance to problem-solving, implications, similarities and differences with previous studies, and potential for further development. Results may be presented in the form of figures, graphs, or tables.
- f. **Conclusion and Recommendations:** Should summarize the key findings, their contribution to addressing the problem, and provide recommendations for future research or engineering work.
- g. **References:** Must be arranged alphabetically. The format is as follows: Author's family name/surname followed by the initials of the first name. For the second and subsequent authors, write in normal order.
 - *Journal article:*
Tusi, A., & Rosadi, R.A.B. (2009). Aplikasi irigasi defisit pada tanaman jagung. *Jurnal Irigasi*, 4(2), 120–130.
 - *Book:*
Keller, J., & Bleisner, R.D. (1990). *Sprinkle and Trickle Irrigation*. New York: AVI Publishing Company Inc.
- h. **Units:** All measurements must follow the International System of Units (SI), e.g., m (meter), N (newton), °C (temperature), kW and W (power), etc.

2) Manuscript Submission: Manuscripts should be submitted in soft copy to the following address:

Editorial Office, J-Tep (Journal of Agricultural Engineering, University of Lampung)

Department of Agricultural Engineering, Faculty of Agriculture

University of Lampung

Jl. Sumantri Brodjonegoro No. 1

Telp. +62-721-701609 ext. 846

Website: <http://jurnal.fp.unila.ac.id/index.php/ITP>

Email: jurnal_tep@fp.unila.ac.id

3) Review Process

During the submission, peer review, and acceptance stages, all correspondence with the author(s) will be conducted via email.

4) Editorial and Reviewer Rights

Reviewers have the right to evaluate, correct, add, or remove content from the manuscript if deemed necessary, without altering the overall purpose and objectives of the study.
